

## Workshop on Understanding Learning Outcomes

Date: 6<sup>th</sup> July, 2019

Attended by: HODs

Venue: School Library

Conducted by: Ms. Surekha, e-shiksha Chaupal

The session on Understanding Learning Outcomes for HODs, GDSPS was held on 6<sup>th</sup> July, 2019, conducted by Ms. Surekha from e-shiksha Chaupal. The speaker focused on the need to define the learning outcomes for each lesson and how they can be executed and how the cognitive domains in Bloom's Taxonomy can be related to learning outcomes in different subjects.

She reiterated that the learner of today comes with tremendous knowledge, hence the role of the teacher is to control the direction of the students' learning. The learners cannot be left on their own for their learning. The teacher needs to set direction and learning outcomes to be achievable. The speaker focused on knowing of the learning outcomes by the teachers, which should be integrated on what the learning outcomes will be. The resource person gave examples to focus on learning outcomes. It was an interesting and enriching session.
